

TT/minutes/20171108

Attendees

- [Jeremiah Foster](#)
- [Manfred Bathelt](#)

Agenda

- Feedback from AMM
- Guider project developer interested in connecting Guider to DLT
- Crossbar seen as too heavy for current use, plan is to look for a C++ tool instead that does the same thing.
- Additional developer being added to work on GENIVI WAMP repositories
 - Follow along with the WAMP tooling project here: [capicxx-wamp-tools/projects/1 repository](#)
 - Travis, the continuous integration tool is enabled and being used for some of the tooling: <https://travis-ci.org/GENIVI/capicxx-wamp-tools>
- Find a time for Franca+ breakout session in CET that Klaus can attend
 - Klaus writes;

I see a couple of different options:
- we move the discussion to offline during the next 4-5 weeks (we use
> github facilities to discuss example models and concept questions, via
> issues etc)
- you just keep the date on Wednesday morning, and I comment offline (as
> in the prev. option)
> - we find some replacement slots over the next few weeks

> Pls indicate what you plan to do, then we can look for free slots...

- Gunnar replies;

Since the TT overlaps the BIT slot (and always has), I would be in favor of
changing the meeting time.

Minutes

- Discussed finding a time for Franca+ breakout session via creating an online poll

Actions

- Jeremiah Foster Create an online poll (dudle or similar) for Franca+ breakout session 08 Nov 2017 <https://dudle.inf.tu-dresden.de/g6qdf449/>
