

Test of persistence-common-object

1. install *-test at build/conf/local.conf

```
IMAGE_INSTALL_append += " \  
    persistence-common-object-test \  
    "
```

2. run system services

```
systemctl restart dlt  
systemctl start dlt-dbus  
systemctl start dlt-example-user  
systemctl start pas-daemon  
systemctl start node-startup-controller
```

3. run test program

```
root@qemux86:~# /opt/tests/persistence-common-object/ test_pco_key_value_store
