Beyond IVI and into the Connected Cockpit

The upcoming GENIVI All Member Meeting is scheduled for May 12-14, 2020 at the Marriott Hotel in Leipzig, Germany. Members and guests will explore trends affecting vehicle software solutions and engage in topics related to the expanded scope that includes integration of multiple operating environments present in the centralized and connected vehicle cockpit.

Anchoring the technical program will be updates and working sessions from the Android™ Automotive SIG, Cloud and Connected Services project, Hypervisor project, Adaptive AUTOSAR integration activities, cybersecurity and a new project under consideration in the area of in-vehicle payments. In addition to these, invited speakers will present trends affecting the automotive software landscape. Finally, you will not want to miss the Showcase and Reception event the evening of the 13th.

GENIVI not only wants to inform its members and the broader industry, but also welcomes active participation to ensure solutions develop enjoy broad adoption across many organizations. Whether you are a GENIVI member or just an interested industry stakeholder, you are welcome at this event.

Register today for your spot to engage in this exciting new mission of helping OEMs and their suppliers identify standard approaches for a fully integrated, multi-OS vehicle cockpit.
