

# Sample proof of concept on GDP

PLACEHOLDER for Philippe Coval

I've been recently tested integration of Open Interconnect Standard to GENIVI (which provides all kind of IoT services on top of CoAP). Here is a sample proof of concept on GDP (based on previous works shown at FOSDEM)

<https://vimeo.com/154879264#iotivity-genivi-demo-platform-20160210rzt>

It uses IoTivity reference implementation along Tizen Devices.

etc.
